

# Strength from the Roots

---

A very special project has been undertaken by CLUE CA (Clergy and Laity United for Economic Justice).

This project will culminate with an Inland Empire Arts and Cultural presentation, a joint production of CLUE, the Southland Symphony Orchestra, and Bethel!

Strength From the Roots brings together songs from immigrant communities (European, Latin, and African) along with social justice movements to demonstrate historic connections. It also is a participatory exercise in empowerment through sharing personal and cultural stories.
